Message from the Chairman

Dear Friends,

It is difficult to imagine that my year as Chairman is half gone. Another Scholarship season has passed and I was fortunate that our President provided opportunities for me to represent Funds at awards ceremony and recognize the outstanding academic, athletic and general good character of the scholarship recipients of 2015. President Nick Austin tried to attend every school and worked diligently with the schools to see that as many of the awards that could be granted were granted. I extend grateful appreciation to the volunteers on the Scholarship Committee for their countless hours reviewing, evaluating and selecting scholarship award recipients when there were so many qualified applicants.

We also have participated in several high visibility events. The Tri-County Chamber of Commerce event was made at least partially possible due to behind the scenes role of YCF. Newly endowed funds are being created by community leaders with true charitable goals. YCF is not the focus of these events, but continues to provide the backbone upon which philanthropy can flow from the communities with which we work.

Finally, YCF kicked off a campaign to start a year long effort where unrestricted funds will be collected and used to match gifts to community funds which have been endowed at YCF. We are calling the new unrestricted fund the “Opportunity Fund” and will be reaching out to community leaders and foundations to create a charitable giving pool as the seed money for a matching week of giving next spring. The Committee that has taken on this project has started out with a great kick-off event, which I am optimistic will result in one of the biggest charitable events in YCF history.

I write to thank each of you who will read this for your effort to make North Central West Virginia a better place to live and work. The YCF volunteers make this foundation the true base upon which we can build a better community. Thank You.

My best regards,

Robert L. Greer, Chair of YCF
Tanner’s gifts continue through Children’s Enrichment Fund

Stephen Tanner was one of the best-known and well-liked members of the Morgantown community for many years. He was one of the founders of the Greater Morgantown Community Trust, which was merged into YCF, and both he and his wife Rita served on our board of directors.

The Tanner family also donated the building at 111 High Street which today houses the YCF offices as well as other community organizations. The building – listed on the National Register of Historic Places – formerly housed Tanner and Tanner CPAs and was once the Morgantown Post Office.

Stephen Tanner will continue to make gifts to the community for years to come, thanks to the Stephen D. Tanner Children’s Enrichment Fund created by Rita Tanner in the name of her late husband. The endowment fund, under the management of YCF, will be invested to increase its value, with net earnings used annually to provide educational opportunities for children from low-income families and to help cover the cost of enrichment programs for children.

“We wanted to honor Stephen’s memory by helping children in Monongalia County gain opportunities they wouldn’t otherwise have,” Mrs. Tanner said. “Many students face obstacles; they fall behind. This fund can lend a hand, for instance, providing scholarships for tutors.”

“YCF is grateful to the Tanner family for initiating this new endowment fund and proud to manage it for the benefit of children in Monongalia County,” said Nicholas Austin, president of YCF. “We are already looking at several projects for this year where funds from the Tanner endowment will be used to benefit students, and will support other worthy projects in the years ahead.”

Tanner was a vital member of the Morgantown community, serving on the City Charter Board, Historic Landmark Commission, Parking Authority, Salvation Army board and Morgantown High School Foundation board. He also served as a member of the WVU College of Creative Arts Visitors Committee, West Virginia Holocaust Commission, Public Radio Board and Humanities Council.

In 2008, he was named Morgantown Citizen of the Year and WVU’s Most Loyal West Virginian, and in 2012 he received the Earl L. Core Award, the highest honor conferred by the Morgantown Chamber of Commerce.

Center receives more than a little help from its friends

Julie Sole had an idea to raise money for the Disability Action Center (DAC) in Fairmont.

She didn’t want to go all out with a large-scale campaign, she said. “We wanted to keep it simple at first and see what we could do.”

So late last year, she asked a small group of special friends to help her raise $5,000 to put toward an endowment fund with YCF. She hoped to raise the cash by summer, and then match it with $5,000 from DAC’s budget to fully fund the $10,000 endowment.

She got a nice surprise in March of this year when donations surpassed $7,300.

“We raised this money from January to March by asking the people who care about us,” said Sole, executive director of the DAC. “Our friends stepped up. The response was overwhelming.”

As a result, the organization was able to create the DAC Education and Resource Fund through YCF with more than $12,000 in hand. The fund was formally established at a gathering of DAC members, family and friends when Sole signed the Fund Agreement along with Nicholas Austin, president of YCF.

“This is a great day for us at DAC,” she said. “We have a lot of good ones but this is a great one. Our goal now is to grow the fund and use the interest it accrues to give back in the form of Assist Award Scholarships to special needs students in the county high schools.”

DAC focuses its support on the educational needs of individuals with disabilities and their families and, when funds are available, provides resources to include home modifications, assistive technology, personal development, training and support services.

Ray Richardson, who helped start the Assist Award in support of his disabled daughter, said the idea was always to have a foundation manage the endowment, which eventually led to the partnership with YCF.

“I’ve attended a number of high school graduations in different capacities,” Richardson said. “You sit back there and see the valedictorian and all of the other awards that were given, but the ones that really worked equally hard within their own capabilities were the special education students. To sit back and not see any recognition at all for these people got to me.”

Austin said YCF is honored to be a part of the endowment fund, which the foundation will invest to increase its value while continuing to accept donations from individuals, businesses and groups that support the DAC.

“We will do our best custodial job with these funds and invest them wisely,” he said. “Hopefully this is just the beginning.” Creation of the endowment will enable DAC to accept in-kind donations and possibly even larger grants, he said.

The Chambers of Commerce in three North Central West Virginia counties have a lot in common. What they were missing was a link to bring them all together so their issues, problems, opportunities and ideas could be shared.

Enter Your Community Foundation.

When more than 200 area business leaders gathered for the inaugural North Central West Virginia Business Summit earlier this year, they were tied together by a common thread woven by YCF.

“We needed cohesiveness among the counties in this area and YCF was a natural fit for that,” said Dan Kimble, president of the Morgantown Area Chamber of Commerce. “The overall mission of YCF and our chambers of commerce is essentially the same — to improve the area where we live. We do it from the business perspective and YCF does it from a much larger realm.”

“We called this event ‘Bridges Without Boundaries’ because it’s a collaboration of three chambers of commerce reaching across borders to highlight and bring attention to emerging technology in North Central West Virginia,” said Tina Shaw, president of the Marion County chamber. “The event focused on the areas of aerospace, energy, technology, education and health care, with panelists who discussed how the entire region benefits from progress in those areas.”

The Morgantown Area, Marion County and Harrison County chambers coordinated the event through a fund they established with YCF.

“YCF is a member of all three chambers,” Shaw said. “We set up the fund to collect registration fees and cover expenses, and we’ll have some money left over to help us sponsor more economic development opportunities in the future.”

Kathy Wagner, president of the Harrison County chamber, noted that nearly 30 industry leaders attended the event, “which provided a tremendous opportunity for our local businesses to gain insight into what makes North Central West Virginia great.

“They discussed industry trends, where their companies are going and how we can work together with them,” she added. “In the technology sector, for example, many of the advances that we take for granted came about right here in our area. Another example concerns career opportunities for young people to pursue and stay in West Virginia.”

The bottom line, she said, is, “We want these companies to stay here in our region and grow.”

Nicholas Austin, president of YCF, emphasized that by working together, business leaders from the area become part of a regional entity that works for the common good of the people and businesses within that region.

Morgantown’s Kimble also emphasized the value of collaboration when dealing with elected state and national leaders.

“By collaborating more with each other, it enables us to add our voice to the voices of other counties,” he said. “That way, when we speak, it gives us a more powerful voice.”

YCF honored as Chamber’s ‘non-profit of the year’

YCF was honored by the Morgantown Area Chamber of Commerce as its non-profit organization of the year for 2014.

“We are delighted to be named non-profit of the year, especially when you consider the many wonderful non-profit organizations we have in this area,” said Nicholas Austin, YCF president. “This award recognizes YCF as an organization as well as all of the donors and recipient organizations we work with, whose hard work combines to make us what we are.”

YCF – created in February 2011 by the merger of the Greater Morgantown Community Trust and the Community Foundation of North Central West Virginia – continues to grow with more than 160 endowment funds and assets of approximately $11 million.

“The merger made us much more of a regional organization,” Austin said. “We now have a larger footprint over several counties that enables us to play a bigger role in many aspects of people's lives, including education, health, wellness, societal needs and athletics, just to name a few. A lot of non-profits do great work in specific areas, whereas YCF with its broader reach is able to make a bigger community impact.”

Among our major projects:

• We manage 33 separate funds that award scholarships to deserving students in the region. In 2014, more than 50 students received more than $350,000 in scholarship assistance, bringing the total amount YCF has awarded for scholarships to more than $1 million.

• We manage two funds supporting the Empty Bowls program that helps feed the hungry in Monongalia County. Annually, YCF contributes an average of $60,000 to Empty Bowls.

• We continue to solicit donations to support the Patriot American Flag project in Fairmont. A 30-by-50-foot American flag was erected last June to fly over I-79, and funds are needed to replace flags that are damaged by wind, weather and wear.

• Funds are being collected to help create, erect and maintain a statue of Don Knotts, the Morgantown native famous for portraying Barney Fife in the “Mayberry” TV series and star of many other movies and TV shows.

• We also support the creation and placement of a statue honoring Zackquill Morgan, founder of Morgantown.

• In Harrison County, we support the Bi-County Nutrition Program which provides meals for elderly and shut-in residents, and the Child Instrument Recycle Program (CHIRP) that makes used musical instruments available to promising music students who can't afford to buy new or used instruments on their own.

• Other notable funds support the West Virginia Black Heritage Festival, Taylor County Community Funds, Marion County Historical Society, Mon River Trails Conservancy and the Clarksburg-Harrison Cultural Foundation.

“I want to see us doing even more of this good work – growing our foundation and our funds, continuing to educate other nonprofits out there about ways we can help them, and getting the word out,” Austin said. “Growth is always at the top of the list, because the more we grow the more we can put back into the community.”

DeLynn scholarship passes quarter-million mark in gifts

Seventeen students from the Morgantown area began their collegiate careers last fall with the help of a $5,000 grant from the Laurence and Jean DeLynn Scholarship Fund. If they stay in school and maintain good grades, each will receive $20,000 toward the cost of a four-year college education.

These 17 students also helped to establish a milestone for the DeLynn scholarship endowment. Since 2008, a total of 47 students have received a scholarship from the fund, which this year surpassed the quarter-million-dollar mark in total grants awarded. By the time this year’s freshmen graduate, the total will be well on its way toward a $1 million payout.

“This is by far the largest scholarship we administer,” said Nicholas Austin, president of YCF. “The DeLynn family is a very important part of our family, and their generosity has played a very important role in the lives of a lot of area students. We are extremely blessed to have the DeLynns helping to support the students of North Central West Virginia.”

The scholarship fund was created in 2007 when Laurence and Jean DeLynn made a $1 million contribution to the Greater Morgantown Community Trust, which is now a part of YCF. The late Laurence DeLynn was member of the Board of Directors of Mylan Pharmaceuticals for 30 years and was a longtime friend of Mylan co-founder Milan “Mike” Puskar.

He and his wife had been contributors to the Morgantown community for more than 50 years, and to continue this legacy of giving, he and Jean created a scholarship fund for children and grandchildren of current or retired full-time Mylan employees who are based in the company’s Morgantown facilities.

“This was a way for the DeLynns to give back to the company that helped them achieve so many of their philanthropic goals,” said Beth Fuller, former president of YCF.

In their hometown of Morgantown and their adopted hometown of Longboat Key, Fla., the DeLynns also directed their volunteer and philanthropic efforts toward children, serving as mentors or helping to provide summer arts and recreation activities.

“Laurence and Jean always held the health and well-being of children in highest regard,” Fuller said. In addition to the scholarship fund, YCF also administers the DeLynn Arts for Children Fund to support these types of activities.

Since her husband’s passing, Jean DeLynn has continued her involvement with the scholarship program and even hosts a brunch every year for present and past scholarship winners, Austin said. “This year we were delighted to welcome 80 students and parents to the event, where the recipients get a chance to meet each other and to thank Mrs. DeLynn in person for her generosity, and she gets to meet the students she is helping go to college.”

The DeLynn Scholarship provides a $5,000 per year renewable scholarship to high school graduates who must be regularly enrolled in an accredited higher educational institution. Recipients must have exhibited excellence, commitment and leadership through involvement in school and community organizations and demonstrated high academic promise. Financial need is considered a secondary criteria.

Bryce Cumpston, who received the DeLynn scholarship for four years, recently completed his undergraduate work at WVU. “Receiving the DeLynn Scholarship opened doors for me that otherwise never would have been an option,” he said. “With the contribution by Jean and Laurence, I was able to focus more on academics and less on how I was going to afford it. It has truly been a blessing.”

Design a Lasting Legacy

YCF provides a variety of funds to meet both donor and community needs. You may choose to express a lifelong commitment to a particular charitable field and support that interest in perpetuity. Perhaps you have a specific charity or charities in mind to receive income from your gift or fund. Or, you may favor an unrestricted gift, allowing the Foundation to determine where needs and opportunities are greatest in the community. You and possibly your family may choose to be actively involved as advisors to the fund. These choices or a combination of these choices are available to you through Your Community Foundation.

Most funds are permanent endowments, but some allow distribution of principal. Each is tailored to the needs and interests of the donor and reaches into the community in its own unique way. You can name your own fund or you can contribute, in any amount, to an open fund of YCF.

AGENCY ENDOWMENT FUND income helps non-profit organizations meet the daily costs of doing charitable business. Local non-profit organizations may wish to invest their monies with YCF which assumes reporting and investing responsibilities for the non-profit organization.

DONOR ADVISED FUNDS allow the donor to actively participate in the grantmaking process by recommending to the YCF Board from time to time the purpose and/or organization(s) that might receive the available grant dollars from the fund. Donors can involve their children as advisors to perpetuate a family tradition of philanthropy. Donor Advised Funds offer concerned donors a flexible way to address their charitable interests as they change over time.

DONOR DESIGNATED FUNDS enable donors, at the time the fund is established, to name one or more organizations to benefit from the fund permanently. The Foundation ensures that the designated recipient(s) receive support as long as they remain in existence and continue to fulfill the intended charitable purpose.

FIELD OF INTEREST FUNDS enable the donor to address an area or issue about which he or she feels strongly and that is of particular importance to the community. Fields of interest may include, but are not limited to, arts, the environment, women’s services, education, youth services, religion or health care. Within the specific area established by the donor or YCF itself, the Field of Interest Fund may grow through gifts from others who see them as a way to address their own charitable interests. Under the direction of the YCF Board of Directors, grantmaking addresses the specific area identified by the fund.

NON-PERMANENT AND PASS-THROUGH FUNDS are given to the YCF with the understanding that the entire principal will be distributed to charitable purposes. The recipients are designated by the donor. These funds remain available on a cash basis to provide specific support (for example, capital projects or event programming) for a defined period of time.

SCHOLARSHIP FUNDS are established to assist students with the pursuit of education. Donors may select eligibility requirements and can designate funds for any level of education. Distributions are made in accordance with YCF policies providing funds to the specific institution in which the student is enrolled with verification of that institution. In addition, grants may also be awarded to educational institutions directly.

UNRESTRICTED FUNDS are those donated without stipulations or conditions; they allow YCF maximum flexibility to respond creatively and effectively to our communities’ most compelling needs and opportunities. These funds are among the Foundation’s most important assets to address long-term community planning. Grantmaking from the fund is at the discretion of the YCF Board of Directors within the bounds of the educational, scientific and general charitable purposes of the Foundation.

BEQUEST BY WILL
Including a charitable bequest in your will is a simple way to make a lasting gift to your community. When you make this gift through Your Community Foundation, we establish a special fund that benefits the community forever and becomes your personal legacy of giving.
To the Board of  
Your Community Foundation, Inc.  
Morgantown, WV 26505

I have audited the accompanying financial statements of Your Community Foundation, Inc. (a not-for-profit organization), which comprise the statements of financial position as of December 31, 2014 and 2013, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility
My responsibility is to express an opinion on these financial statements based on my audits. I conducted my audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion
In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Your Community Foundation, Inc. as of December 31, 2014 and 2013, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Description of Organization and Significant Accounting Policies

1. ORGANIZATION AND NATURE OF BUSINESS
Your Community Foundation, Inc. (Foundation) was incorporated under the laws of the state of West Virginia as a not-for-profit corporation in January 2011. The Foundation was established as a community foundation to administer and invest donor funds and to assist in matching community resources with community needs. The Foundation aims to assist donors in achieving their charitable intentions through the establishment of funds and endowments that provide resources to enhance the quality of life for communities located in north central West Virginia. The Foundation’s major sources of revenue and support include administrative fees charged for managing donor funds, local city and county grants, and rental income.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting as contemplated by generally accepted accounting principles, and accordingly, reflect all significant receivables, payables, and other liabilities.

Basis of Presentation
The Foundation’s financial statement presentation follows the recommendations of the Financial Accounting Standards Board (FASB) Codification Section 958.205 Not-for-Profit Entities Presentation of Financial Statements (ASC 958.205). Under ASC 958.205, the Foundation is required to report information regarding its financial position and activities according to three classes of net assets based on the existence or absence of donor restrictions. The Foundation’s net assets and changes therein are classified and reported as follows:

- **Unrestricted net assets**: represent resources whose use is not limited or restricted by donors.
- **Board restricted net assets**: represent net assets not limited or restricted by donors, but restricted by the board for the purpose of assuring long-term stability and sustainability, while allowing for planning and implementation of longer term initiatives.
- **Temporarily restricted net assets**: represent resources whose use is limited by donor-imposed stipulations that either expire by the passage of time or can be fulfilled or otherwise removed by the organization’s actions.
- **Permanently restricted net assets**: represent resources whose use is limited by donor-imposed stipulations that neither expire or can be fulfilled or otherwise removed by the organization’s actions.

Additionally, the Foundation follows FASB Codification Section 958.605 Not-for-Profit Entities Revenue Recognition (ASC 958.605). In accordance with ASC 958.605, contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted depending on the existence or nature of donor restrictions.

The Foundation possesses variance power, that is, the unilateral right to remove donor-imposed restrictions upon a gift in response to changed circumstances. This power is exercisable only in narrowly defined circumstances. Because this power is incorporated by reference in all gift instruments (fund agreements) accepted by the Foundation, the Foundation views its variance power as an explicit expression of donor intent.

The Foundation recognizes that gifts received may be subject to one or more of three types of donor-imposed restrictions: (1) contributions received with restrictions as to purpose (“purpose restriction”); (2) contributions received with a requirement that the principal of the gift be retained for a specified period of time (“time restriction”); (3) contributions received with a requirement that the principal of the gift be retained permanently (“endowment restriction”). The Foundation has determined its variance power applies to all three types of restrictions; however, the Foundation classifies gifts subject to one or more donor-imposed restrictions as temporarily restricted net assets until amounts are appropriated for use or spending, at which time the assets are reclassified as unrestricted net assets.

Endowments

**Net asset classification**
The Foundation follows FASB Codification Section 958.205 Not-for-Profit Financial Statement Disclosure and its guidance on net asset classifications and disclosures for endowment funds.

The Foundation has determined that its variance power applies to all three types of restrictions, to include endowment restrictions; however, those gifts subject to endowment restrictions have been deemed to constitute endowments funds under the Uniform Prudent Management of Institutional Funds Act as enacted by the state of West Virginia.

In 2008, West Virginia enacted a version of the Uniform Prudent Management of Institutional Funds Act (WV UPMIFA), the provisions of which apply to endowment funds existing on or established after the date of enactment. For the purposes of these financial statements, the Foundation defines an endowment fund as a fund established with the donor understanding that the principal or stated part thereof is not wholly expendable by the Foundation on a current basis. Furthermore, the Foundation has interpreted WV UPMIFA as requiring the preservation of the fair value of the original donation as of the donation date absent explicit donor stipulations to the contrary. As a result of the Foundation’s interpretation of UPMIFA, the Foundation classifies as temporarily restricted net assets the original value of the resources donated to the endowment fund and designated therein as endowment principal to be kept intact. The remaining portion of the endowment is also classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by WV UPMIFA. Amounts appropriated for spending are classified as unrestricted net assets.
In accordance with WV UPMIFA, the Foundation considers the following factors in making the determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund;
- The purpose(s) of the donor-restricted endowment fund in conjunction with the Foundation's not-for-profit status;
- General economic conditions;
- The possible effect of inflation and deflation;
- The expected total return from income and the appreciation of investments;
- Other resources of the Foundation;
- The investment policies of the Foundation.

**Endowment Investment Policies**

The Foundation's primary investment objective is the preservation of capital in real dollar terms. Providing a predictable, stable stream of income for grant-making and operating needs, and providing for fund growth are secondary objectives.

The investment committee (Committee) is responsible for recommending specific investment policies and objectives for the Foundation endowments, funds, and other Foundation accounts to the Board of Directors (Board). The Committee generally expects the investment to approximate a 60/40 blend of the S&P 500 and the Barclays Aggregate Index, respectively over a three to five year market cycle. Average net return on investment should approximate widely used comparison indices as they pertain to each asset allocation class.

Endowment assets are considered as two parts: an “equity fund” and a “fixed income fund”; furthermore, the endowment will be diversified both by the asset class and within asset classes. Moreover, the equity fund will allocate to managers who have distinct and complementary investment styles.

**Endowment Spending Policies**

The Foundation’s spending policy was adopted to provide a meaningful and growing payout from the endowment funds of the Foundation while preserving the value of the Foundation’s assets on an inflation-adjusted basis. The spending policy’s objective is to have a total draw down of no more than a predetermined percentage set by the board (5% at December 31, 2014), of a trailing 12-quarter average of the market value of each individual endowment fund. The Foundation recognizes that certain circumstances may call for a different base and/or percentage to be used. In such instances the President of the Board, after consultation with the Committee, may adjust the base and/or percentage used for grant distribution.

**Contributions**

Unconditional promises to give are recognized as revenue and included in receivables in the period the promise is given. Such unconditional promises to give are recorded at net realizable value if expected to be collected in one year and at fair value if expected to be collected in more than one year.

Contributions of long-lived assets are reported as unrestricted support unless explicit donor stipulations specify how the donated assets must be used.

Contributions of long-lived assets with explicit restrictions that specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations regarding how those long-lived assets are to be used, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

**Cash and Cash Equivalents**

Cash and cash equivalents consist of cash in checking accounts held in several local financial institutions. The Foundation considers all highly liquid investments with a remaining maturity date of three months or less at the time of purchase to be cash equivalents. Cash and cash equivalents held by investment managers in investment accounts are considered investments for the purposes of the cash flow statement. Cash and cash equivalents held outside of investment accounts associated with temporarily restricted contributions are included in cash and cash equivalents, while any uninvested permanently restricted cash balances held outside of investment accounts are reported as part of long-term assets, and not included in cash and cash equivalents for cash flow statement purposes.

**Donated Services**

In accordance with ASC 905.605, donated services are recognized as contributions if the services (a) create or enhance nonfinancial assets or (b) require specialized skills, are performed by people with those skills, and would otherwise be purchased by the Foundation. For the years ending December 31, 2014 and 2013 no services were received that met the criteria for recognition as donated services.

**Property and Equipment**

Purchases of property and equipment are capitalized at cost. Donated assets are capitalized at the estimated fair value at the date of receipt. The Foundation capitalizes purchased or donated property and equipment based on an assessment of the individual asset’s useful life and cost or fair value. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, ranging from 5 - 40 years. Non-capital expenditures for repairs and maintenance are charged to expense in the year the expense is incurred.

**Income Taxes**

For Federal tax purposes the Foundation is an exempt organization under Section 501(c)(3) of the Internal Revenue Code, and was determined not to be a private foundation by the Internal Revenue Service; however, the Foundation remains subject to tax on any business income unrelated to its tax-exempt purpose.

The Foundation follows FASB Codification Section 740 Accounting for Uncertainty in Income Taxes (ASC 740). This guidance provides a recognition threshold and measurement process for uncertain tax positions, including any estimated penalties and interest associated with those uncertain tax positions. For the years ended December 31, 2014 and 2013 there were no uncertain tax positions requiring accrual.

The Foundation’s Form 990, Return of Organization Exempt from Income Tax for the prior three (3) years are open to audit by the Internal Revenue Service.
Description of Organization and Significant Accounting Policies

**Investments**
The Foundation follows FASB Codification Section 958.320 Not-for-Profit Entities Investments (ASC 958.320). Under ASC 958.320, investments in mutual funds with readily determinable fair values are reported at their fair values in the statement of financial position, and unrealized gains and losses are recorded as an increase or decrease in unrestricted net assets unless their use is temporarily or permanently restricted by explicit donor stipulations. Accordingly, the Foundation has presented investments in such marketable securities and debt securities at their fair value in the statement of financial position. Realized and unrealized gains and losses are included in the accompanying statement of activities.

**Uncollectible Pledges and Accounts Receivable**
An allowance for uncollectible pledges and accounts receivable may be established based on the Foundation’s understanding of the source and nature of the underlying pledges and accounts receivable and historical collection results.

**Functional Expenses**
The costs of providing program and supporting activities have been presented on a functional basis in the statement of functional expenses, and are summarized in the statement of activities. Expenses are charged to program or supporting activities as incurred, or are allocated using a statistical basis.

**Advertising Expense**
The Foundation expenses advertising costs in the period incurred.

**Reclassifications**
Certain comparative amounts have been reclassified to conform to the current year’s financial statement presentation.

**Fair Value Measurements**
FASB Codification Section 820 (ASC 820) Fair Value Measurements and Disclosures defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Under ASC 820, various inputs are used in determining the fair value of assets and liabilities. These inputs are summarized in a hierarchy that segregates fair value measurement in three levels (levels 1, 2, and 3), determined by the nature of input as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities. An active market is a market in which transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis. A quoted market price in an active market provides the most reliable evidence of fair value.
- Level 2 – Other significant observable inputs, including quoted prices of similar securities in active markets, quoted prices for identical securities in markets that are not active, and other market-corroborated inputs.
- Level 3 – Significant unobservable inputs, including the Foundation’s own assumptions in determining the fair value of investments, based on the best information available in the circumstances.

Valuation levels are not necessarily an indication of the risk associated with investing in those securities. The fair value of the Foundation’s cash, receivables, and accrued expenses approximate their carrying amounts due to the short-term or Level 1 nature of these instruments.

**Estimates**
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosures of any contingent assets and liabilities at the date of the financial statements. Such estimates also affect the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results may differ from these estimates.
3. FAIR VALUE MEASUREMENTS

The following tables summarize the Foundation’s fair value measurements for investments in accordance with authoritative guidance at December 31, 2013:

Money market mutual funds are included with cash & equivalents and are valued using quoted market prices or broker-dealer quotations and are classified within Level 1 of the fair value hierarchy. Domestic and foreign equity securities and government and corporate obligations that trade on an active exchange are classified within Level 1.

Equity and bond mutual funds are valued based on the net asset value of units held by the Foundation and are classified within Level 2 of the fair value hierarchy. Net asset value of these funds is determined using quoted market prices for the underlying securities held by the mutual funds.

Limited partnership interests are valued based on valuation techniques such as EBITDA measurements and cash flow analyses using partnership audited financial statements and are classified within Level 3 of the fair value hierarchy. The Foundation’s assumption is that such inputs are an appropriate measure of the fair value of these limited partnership interests.

The following table presents the Foundation’s activity for assets measured at Level 3 fair value on a recurring basis for the years ended December 31, 2014 and 2013:

4 CONCENTRATION OF RISK

The Foundation maintains its cash accounts in financial institutions located in West Virginia. The balances are insured by the Federal Deposit Insurance Corporation up to $250,000. The Foundation’s cash balances at various times throughout the year may be in excess of amounts insured; however, the Foundation monitors its cash balances thereby mitigating its exposure to concentrations of credit risk.

Foundation assets are invested in publicly traded mutual funds, corporate stocks, and bond issues which are affected by market conditions.

5 ACCRUED COMPENSATED ABSENCES

In accordance with FASB Codification Section 710 Compensation, amounts accrued for future absences include amounts that are attributable to the employees’ services already rendered, and only amounts that may be carried forward to periods subsequent to that in which they were earned. The Foundation does not provide for carry forward of unused compensated absences, accordingly, no amounts for compensated absences were included in these financial statements.

6 PLEDGES RECEIVABLE

Pledges receivable are recorded at present value of the expected future cash flows. All pledges are due currently; however, the Foundation established a $12,870 allowance uncollectible pledges for years ended December 31, 2104 and 2013 based on an analysis of the individual pledges.
7. INVESTMENTS

The majority of individual fund assets are invested jointly in a pooled account, with each fund's beneficial interest in the pooled account determined using the "units of participation" method based on the fair value of the underlying assets. Investments were comprised of the following at December 31, 2014 and 2013:

Interest and dividend income is recorded when earned. Realized gains and losses are recorded as the difference between historical cost and fair value when an investment is sold. Unrealized gains and losses are recorded as the change in fair value of investments.

8. NOTE PAYABLE

During year ended December 31, 2013, the Foundation assumed an unsecured note payable to pay for roof repairs. The note calls for monthly payments of approximately $627, including interest at 3.5%, due in 2023.

The Foundation’s approximate annual principal repayments on this note are as follows for years ending December 31:

9. LOAN PAYABLE

In April 2008, the Monongalia County Building Commission issued lease revenue bonds (Series 2008 Bonds) to finance the costs not otherwise provided for the acquisition, construction, and equipping of recreational facilities (Project) located adjacent to the new University High School in Morgantown, WV. Seven local banks were designated as the initial purchasers of the Series 2008 Bonds.

In April 2008, and in conjunction with the Series 2008 Bonds issue, the Board of Education of the County of Monongalia leased the Project grounds to the Monongalia County Building Commission for $1.00 as full consideration for the lease.

Further, in April 2008, The Monongalia County Building Commission subleased the Project grounds to the Greater Morgantown Community Foundation (merged with the Foundation in 2011). The terms of this sublease required the Foundation to pay base rents equal to, but only from monies received from donations made specifically for the Project, the principal and interest required to be paid under the Series 2008 Bond issuance. The lease was to expire in 2013, or a sooner or later date as the Series 2008 Bonds have been paid in full.

In March 2012, the Foundation facilitated a loan from a local bank to redeem the Series 2008 Bonds in full. This loan is not a general obligation of the Foundation. The Foundation has not offered any security for the loan, and is “only obligated to forward the proceeds from any funds raised through the UHS Athletics Complex Project to extinguish the debt.”

10. ENDOWMENT FUNDS

The Financial Accounting Standards Board (FASB) defines an endowment as “an established fund of cash, securities, or other assets to provide income for the maintenance of a not-for-profit organization. The use of the assets may be permanently restricted, temporarily restricted, or unrestricted”.

For the purposes of these financial statements, the Foundation has expanded this definition to include other organizations or individuals who have established funds dedicated to building funds for perpetuity. Endowment funds by net asset classification and changes therein for the years ended December 31, 2014 and 2013 are reflected below.

12. AGENCY ENDOWMENTS

In accordance with FASB Codification Section 958.605 Transfers of Assets to a Not-for-Profit Entity (ASC 958.605), when the Foundation accepts funds from a not-for-profit entity that specifies itself as the recipient of those funds (Agency Endowments), such funds are not included as a component of Foundation net assets. These Agency Endowments, held for the benefit of the transferring not-for-profit entity are reported as liabilities and included with investments on the Foundation’s statement of financial position.

Agency endowments consist of the following funds, carried at fair value, at December 31, 2014 and 2013:

13. LEASE (AS LESSOR)

The Foundation rents office space under several one year lease agreements. Rental income related to these agreements was $18,550 and $14,800 for years ending December 31, 2014 and 2013, respectively.

Additionally, the Foundation entered into a lease agreement with an unrelated third party, terminating June 30, 2015. Rental income related to this agreement was approximately $19,371 and $20,627 for years ending December 31, 2014 and 2013, respectively. Expected minimum lease payments under this agreement are $7,500 for year ending December 31, 2015.

14. RETIREMENT PLAN

The Foundation sponsors a savings incentive match plan for employees of small employers (SIMPLE Plan) under Section 408(p) of the Internal Revenue Code. Employees who are reasonably expected to receive $5,000 in compensation for a calendar year are eligible to participate in the SIMPLE Plan. The Foundation makes matching contributions equal to each eligible participating employee's salary reduction contribution, up to a limit of 3% of the employee's total compensation for the year. There were no contributions for years ended December 31, 2014 and 2013.

14. SUBSEQUENT EVENTS

FASB Codification Section 855 Subsequent Events (ASC 855) establishes general accounting for and disclosures of events that occur after the balance sheet date but before financial statements are issued or available to be issued. ASC 855 requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date. In preparing these financial statements, the Foundation has evaluated transactions for potential recognition or disclosure through August 15, 2015, the date the financial statements were available to be issued. During this period no material subsequent events were noted that require recognition or disclosure under ASC 855.
